Josee's Signature Topic

By using her Spiritually S.M.A.R.T.E.R.™ path, individuals can break free from the mind chatter and tap into the messages of their hearts. During her talk, Josee walks her audience through each acronym through personal stories and tips. During the heart decoding segment, whether someone came forth on the Heart Seat™ intending to seek spiritual guidance or from her reading the room, Josee's heart decoder™ gift picks up on the collective mood, energy, and emotion and speaks in response to what is needed. There is excitement with that process because there's an element of surprise and the unexpected unfolding. The heart decoding jumpstarts the surrendering process of listening to the heart of her audience or the specific individual that came forward, pointing them in a direction that empowers them to follow their hearts and create magnificence in their lives.
